eMPF® Enhancements Now Available!

Two new system enhancements are now available on eMPF that will make it easier for you to utilize and deliver loans into the MPF Program:

REFERENCE

- [MPF Announcement 2019-48](#)
- [MPF Announcement 2019-51](#)

Saving Partial Loan Presentments

No longer will you have to complete an entire loan presentment data set on eMPF to create a record in the MPF System. With this enhancement, you will be able to save partially completed loan presentment records allowing you to access them at a later time.

Interactive Credit Enhancement (CE) Estimator

The CE Estimator is a tool that can provide an estimated CE amount based on only 21 loan level data points. With this new enhancement, you will no longer need to upload a data file in CSV format. Now you can receive an estimated CE amount by entering 21 data points into a new eMPF website screen (please see [MPF Announcement 2019-51](#)).
