The AVM Confidence Score will range from 1 to 5, and 9; 1 represents the highest level of confidence. If an AVM does not populate or if the confidence score is 5 or more, including 9, then a BPO (Broker's Price Opinion) will need to be ordered through SMDU by the MPF Provider. If a valuation is not available through SMDU the PFI must provide a BPO. The results of the BPO will need to be added to the **Property** page.

Click Save once all required fields in the **Property Page** are completed.

## Step 6: How to Attach Supporting Documents to the Form

Once all of the required information has been entered into the above queues, select the **Documents** queue at left.

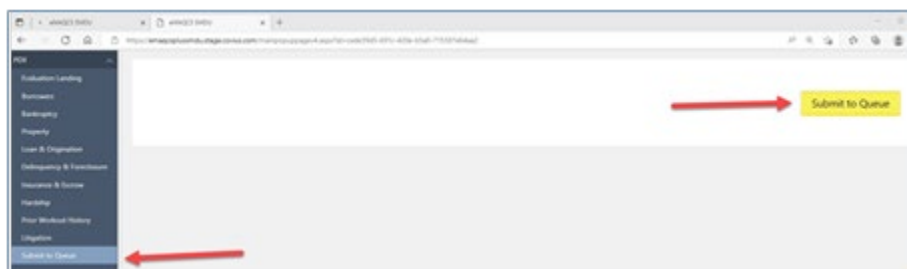

To upload supporting documents into the **Document** queue, drag and drop the file to the document icon. Find the document in its saved location, select the document, and while continuing to hold the mouse button down, drag the document over to the desired blue/white or green file icons and release. The file icon will turn green and a row with the name of the document will populate (as indicated by the yellow highlighted area). This will indicate that the document has been successfully added/uploaded.

Multiple documents can be uploaded into a single blue/white or green file icon. There are no formal naming convention requirements for uploaded documents however, please note that apostrophes and commas should not be used.

## Step 7: How to Submit the Form Successfully
