	Purpose Servicers of conventional MPF Traditional loans must use this form when recommending a workout option for the Borrower.		

Step 4 – How to complete the Form Sections 1 (if applicable), Section 2 (if applicable) and Section 3.

Select the **Form** tab, which is a system interface page that allows you to complete your SG-354 within the system. Beginning February 2021 the SG-354 form is divided into 3 sections to accommodate the new flexibilities described in <u>MPF Announcement 2021-10</u> for loss mitigation options for loans where the hardship is caused by COVID-19.

Section 1

When the loss mitigation request is COVID-19 related, Section 1 must be completed. Servicer must first select one of three radio buttons to indicate whether the loss mitigation option is one of the following:

- COVID-19 Forbearance Extension
- COVID-19 Repayment Plan
- COVID-19 Payment Deferral

The Servicer must then select one of two radio buttons indicating whether one of the following is true:

- The above selected workout is acceptable to the MI (Mortgage Insurance) Company
- The loan is not subject to MI.

It is important to note that if the Servicer selects the radio button indicating that the workout is acceptable to the MI company they are attesting that they have received approval for the loss mitigation option from the MI company.

If the radio buttons in Section 1 are completed the Servicer may skip Section 2 and move forward to Section 3.

The information in the fields with the green frames is will be pre-filled by the system.

To do this find the document in the location where you have it saved, select the document, and while continuing to hold the mouse button down drag it so that your cursor with the document is hovering over one of the blue and white or green icons in the **Document** tab. Release the mouse button when document is over the icon in which you want to place it. The icon will turn green and a row with the name of the document will populate (as indicated in the yellow highlighted area) to indicate that you have successfully saved the document to the **Document** tab.
