

Desktop Underwriter (DU)

Desktop Underwriter helps lenders efficiently complete credit risk assessments to establish a home loan's eligibility for sale and delivery to GSEs. As a reminder Mortgage Loans may be underwritten using Fannie Mae's DU automated underwriting system. Mortgage Loans underwritten with DU must follow Fannie Mae's underwriting and eligibility requirements for that Mortgage Loan and any MPF® Program requirements that supersede Fannie Mae/DU requirements. Fannie Mae's Desktop Originator® (DO®), is an ineligible automated underwriting system under the MPF Program.

Note: To gain access to Desktop Underwriter contact you're Sales Director or make the request with the MPFSales@fhfbc.com and request access to DU.

Desktop Underwriter Learning Center

Fannie Mae offers a variety of resources to optimize your use of the industry-leading automated underwriting system Desktop Underwriter.
