## Fannie Mae's Uniform Collateral Dataset (UCD)

## **Uniform Closing Dataset (UCD) Collection Solution**

The Uniform Closing Dataset (UCD) is a common industry dataset that allows information on the Consumer Financial Protection Bureau's (CFPB's) Closing Disclosure to be communicated electronically. It was developed by Freddie Mac and Fannie Mae (the GSEs) at the direction of the Federal Housing Finance Agency (FHFA). Portions of the closing documents are required to be submitted through UCD. Below is the information on how to set up UCD and UCD training.
